

Drawing with Perspective

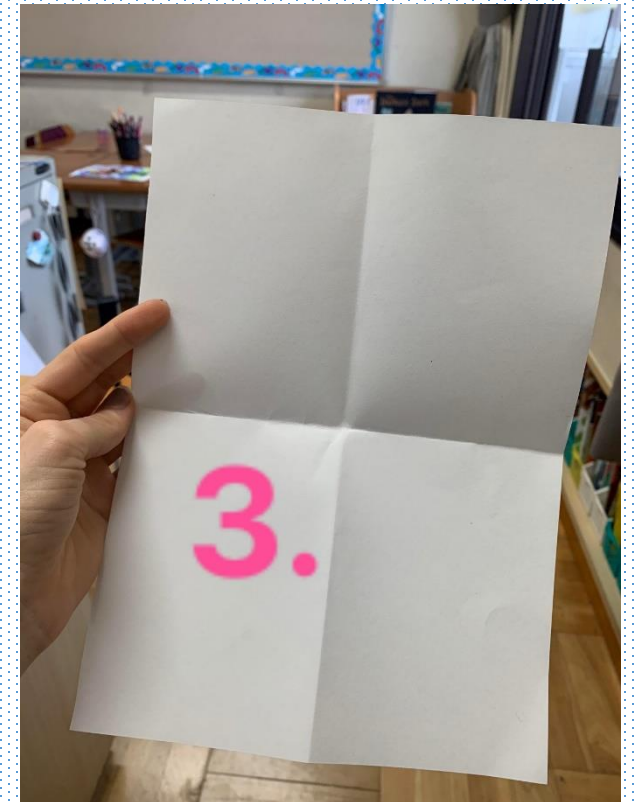

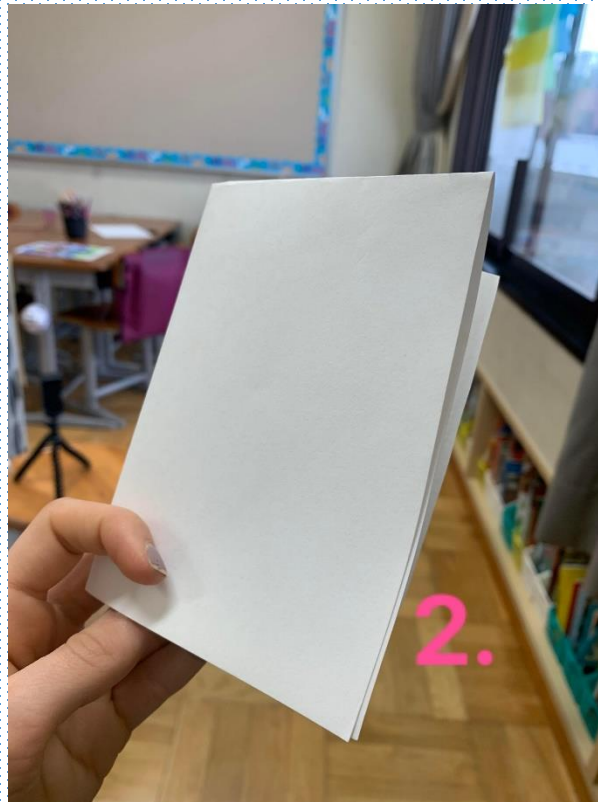

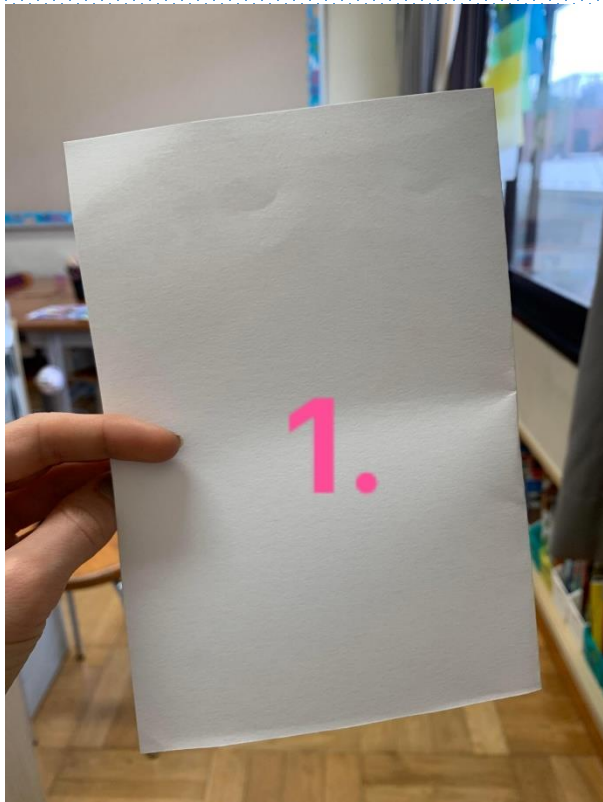

Goal:

We will draw this simple landscape using a step-by-step guide. Please follow the directions closely.

Step One:

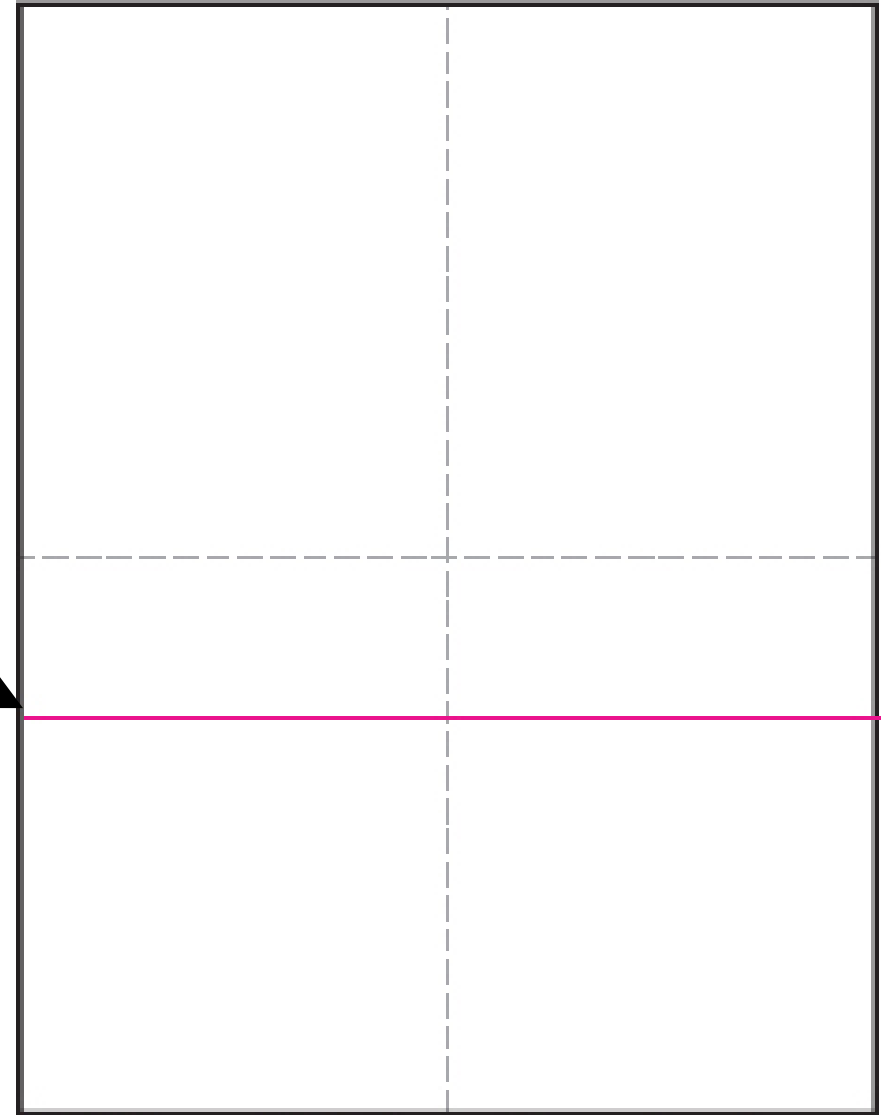

Make guidelines by folding the paper.

Step One:

**Draw a line under the
middle guideline.**

**This is where the
horizon is (where the
mountains start).**

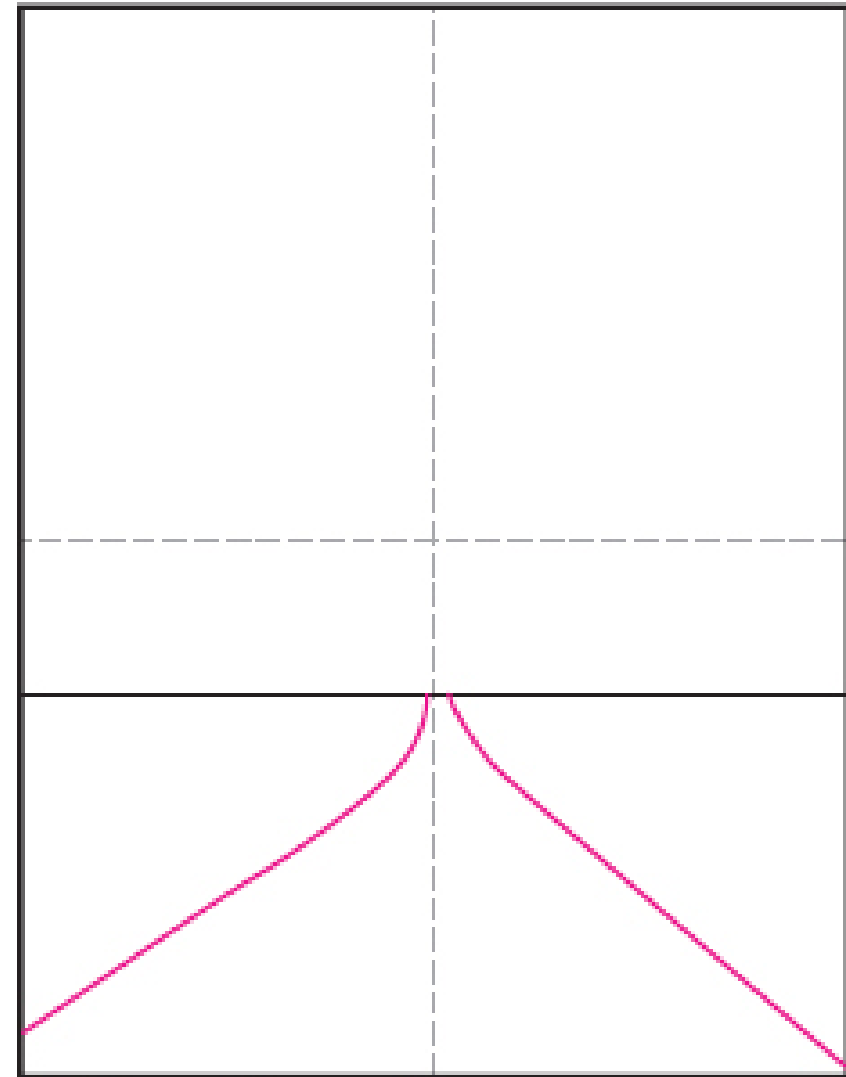

1. Make guide lines. Draw horizon.

Step Two:

Draw the road.

It should be bigger at the front and smaller near the horizon line.

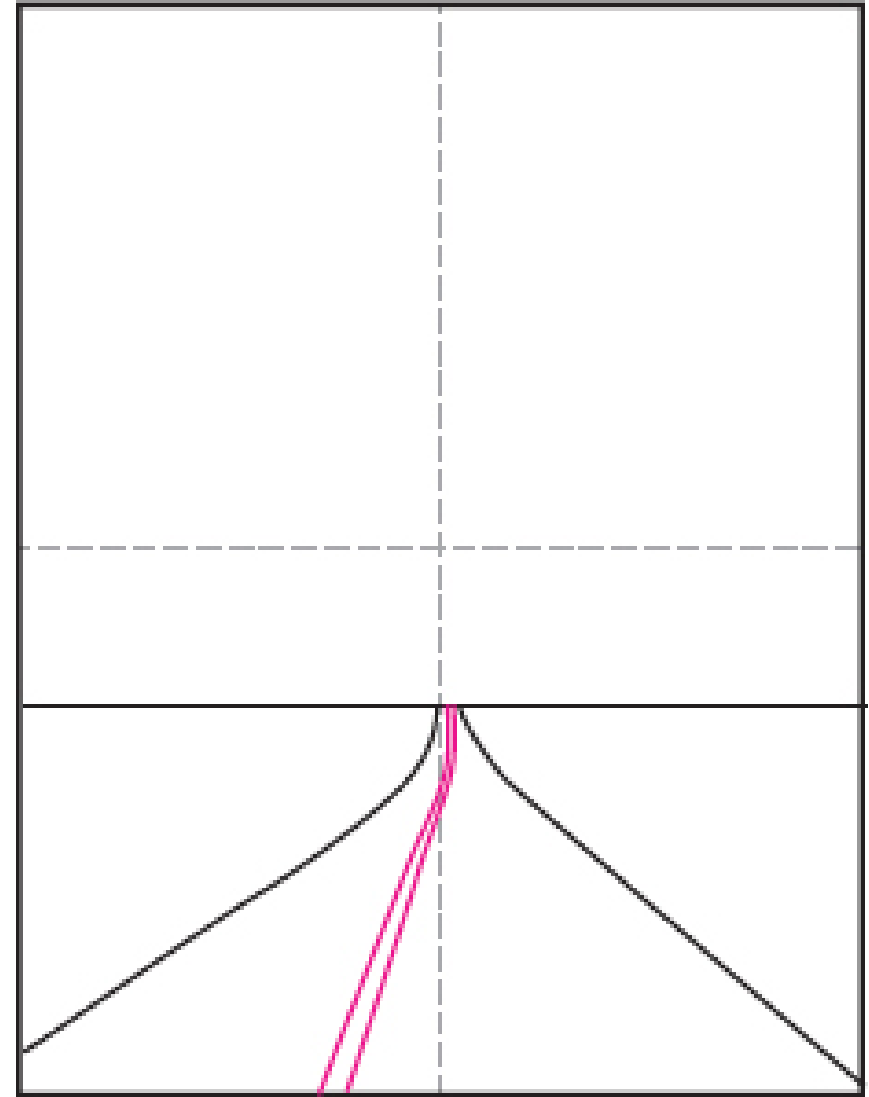

2. Draw the road.

Step Three:

Add two lines in the middle of your road.

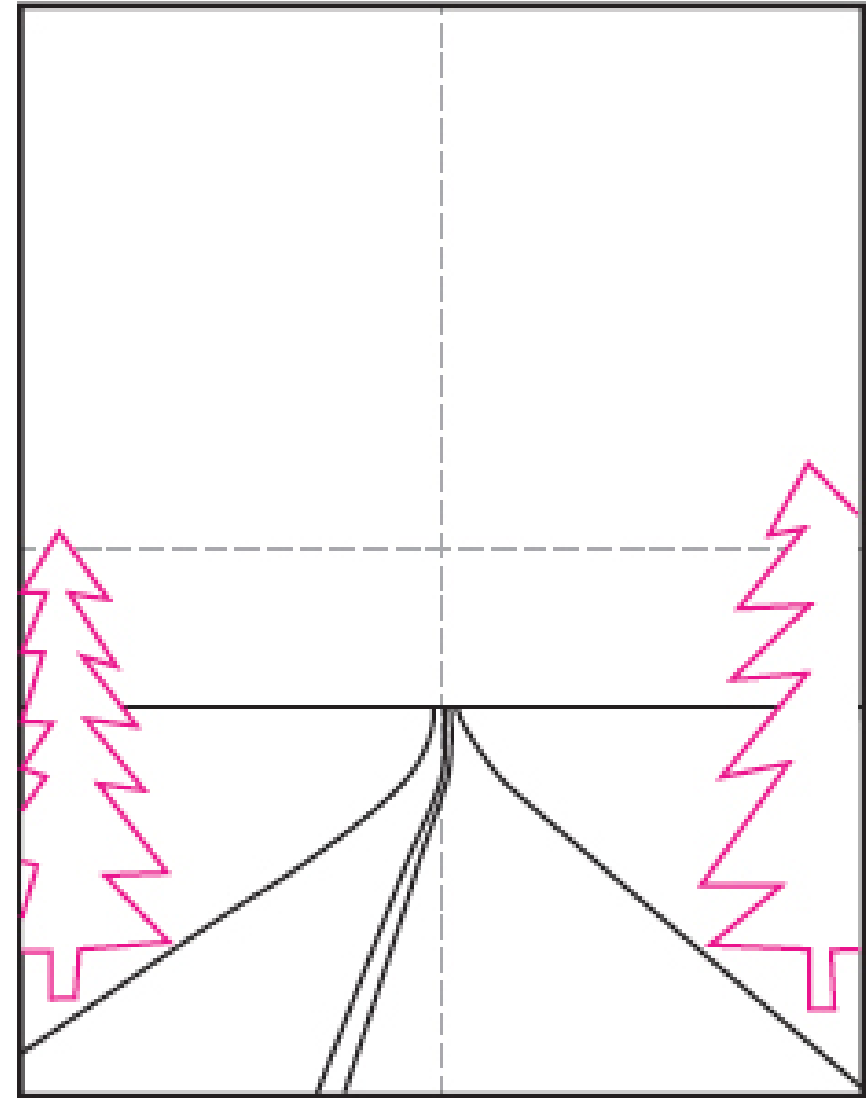

They should get closer together near the horizon line.

3. Add the center road line.

Step Four:

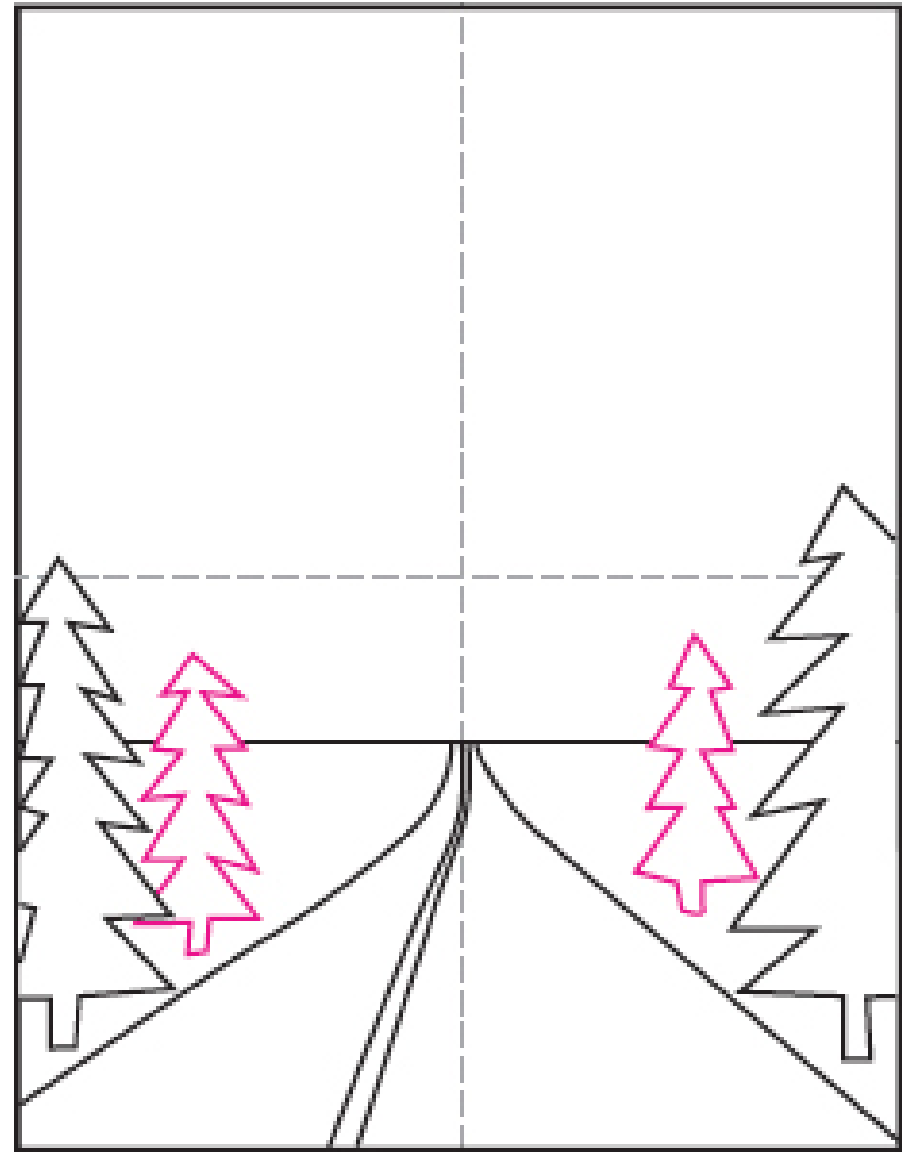

Draw two big trees.

4. Draw two large trees.

Step Five:

Draw two smaller trees behind the big trees.

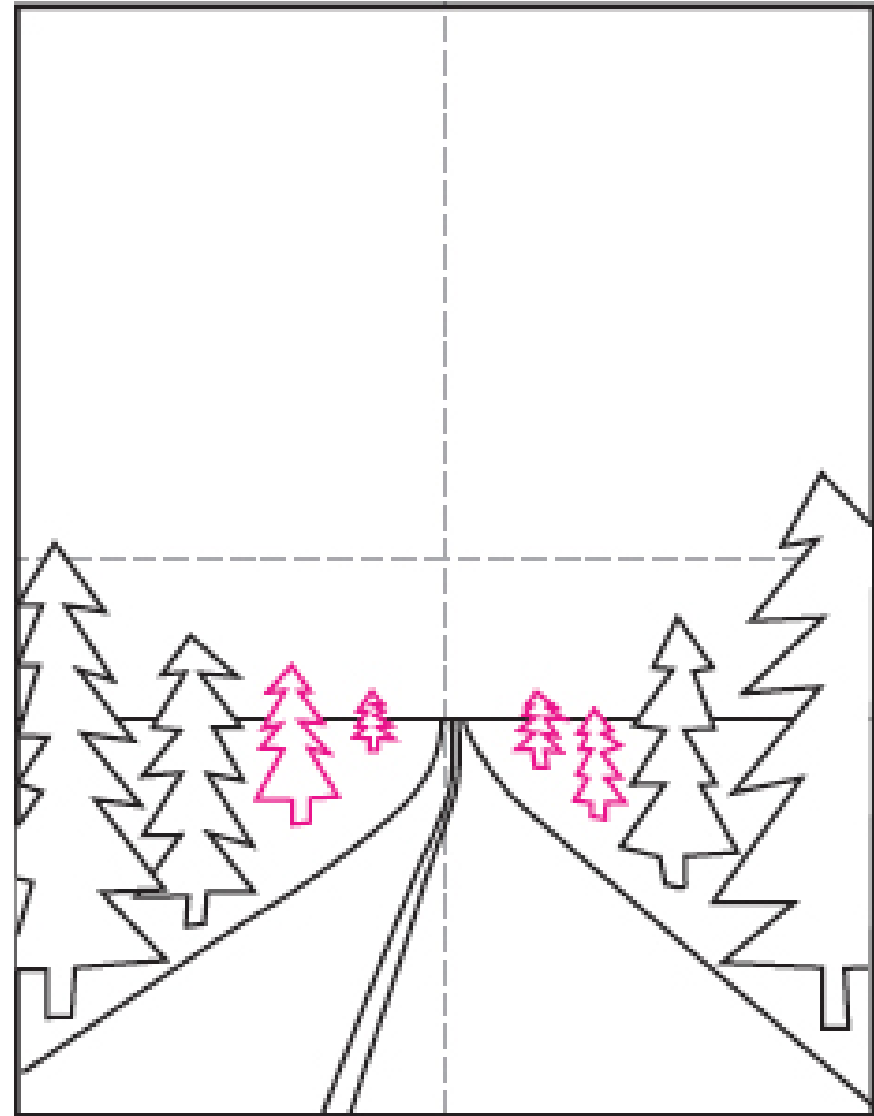

5. Draw two smaller trees.

Step Six:

Draw four more trees.

They should get smaller and smaller as they get closer to the horizon line.

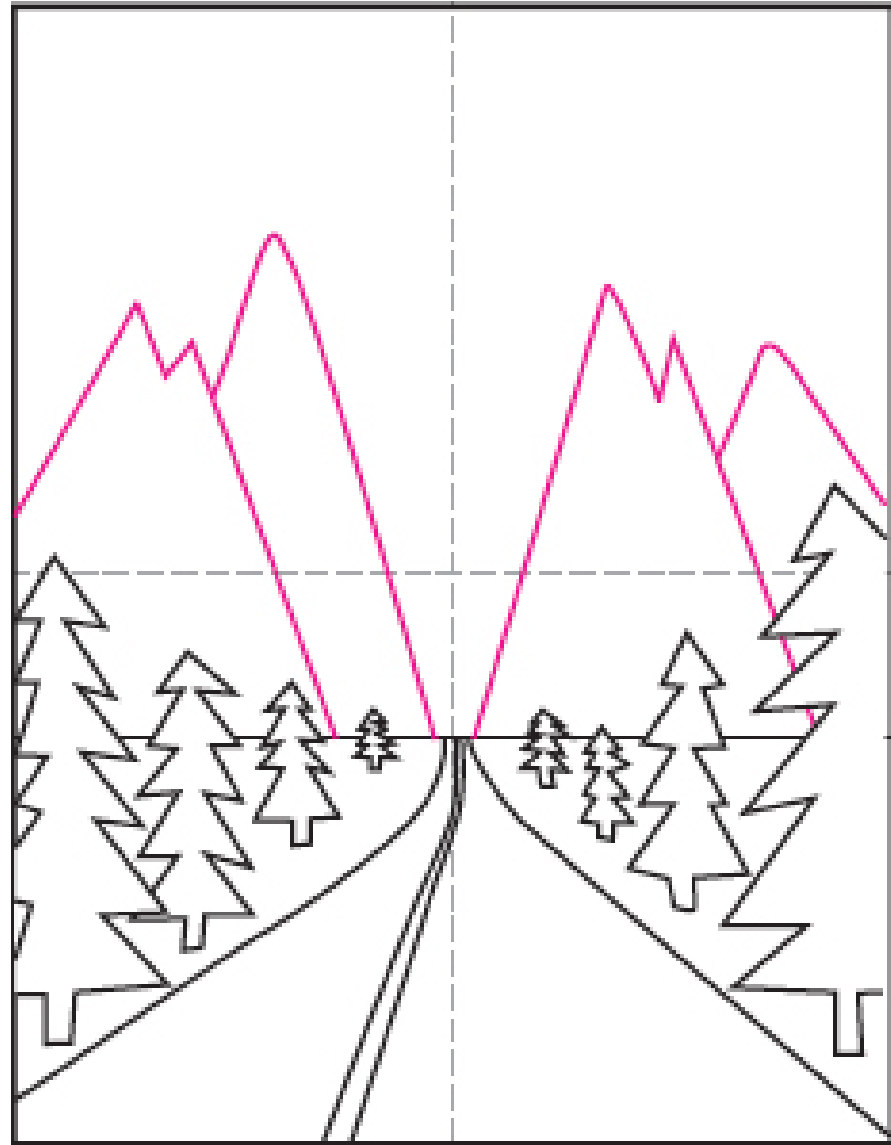

6. Add four smaller trees.

Step Seven:

**Draw some
mountains!**

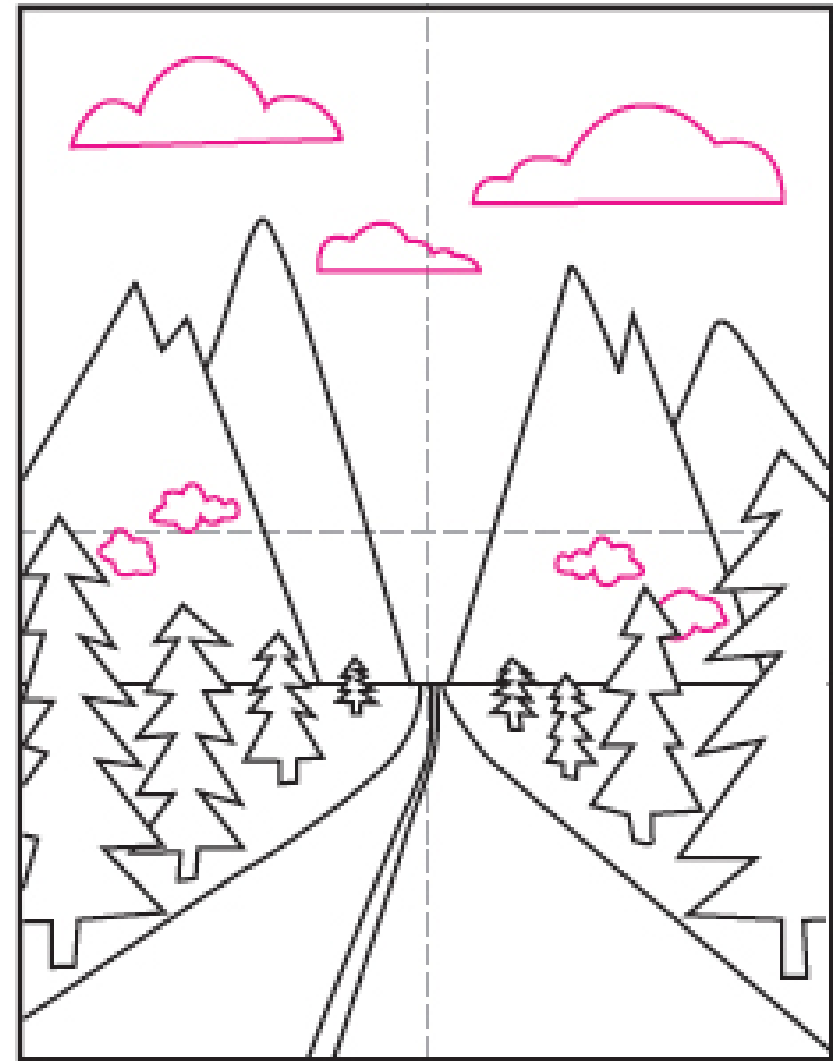

**The bottom of the
mountain is the
horizon line.**

7. Draw the mountains.

Step Eight:

Draw some clouds!

8. Add clouds.

Step Nine:

Color your picture!
